

Road works can be a dangerous place for the people driving through them.

They don't have to be.

Please slow down

It only takes a moment's inattention, a bit too much speed, and you're an accident waiting to happen.

Last year a number of people were killed around road works; driving too fast, not paying attention.

It shouldn't happen.

Be prepared to stop

When you see the road works signs, please slow down, please follow the speed limits, and please take care.

Help us to help you

We're working hard at making the roads safe for you. Return the favour and make it safe for us.

LAST YEAR TOO
MANY PEOPLE
LOST THEIR
LIVES AROUND
ROAD WORKS.
